CloudBlue

This step is triggered by Salesforce webhook, catch the Sales Order ID from salesforce and start the Zapier process.

App: Salesfoce (Legacy)

Trigger: New Outbound Message

The screenshot shows the Zapier trigger configuration interface for Salesforce (Legacy). At the top, it says "When this happens ..." followed by "1. Get Activated Order ID". Below this are four expandable sections, each with a green checkmark on the right: "Choose App & Event", "Choose Account", "Set Up Webhook", and "Find Data". The "Set Up Webhook" section is expanded and highlighted with a blue border. It contains the text "Webhook URL for Salesforce (Legacy)" and a text input field with the URL "https://hooks.zapier.com/hooks/catch/6136264/ohri8dd/". A "Copy" button is located to the right of the input field. Below the input field, there is a link to "Please see Salesforce's guide on setting up Outbound Messaging." At the bottom of the configuration area, there is a blue "Done Editing" button.
