# CloudBlue

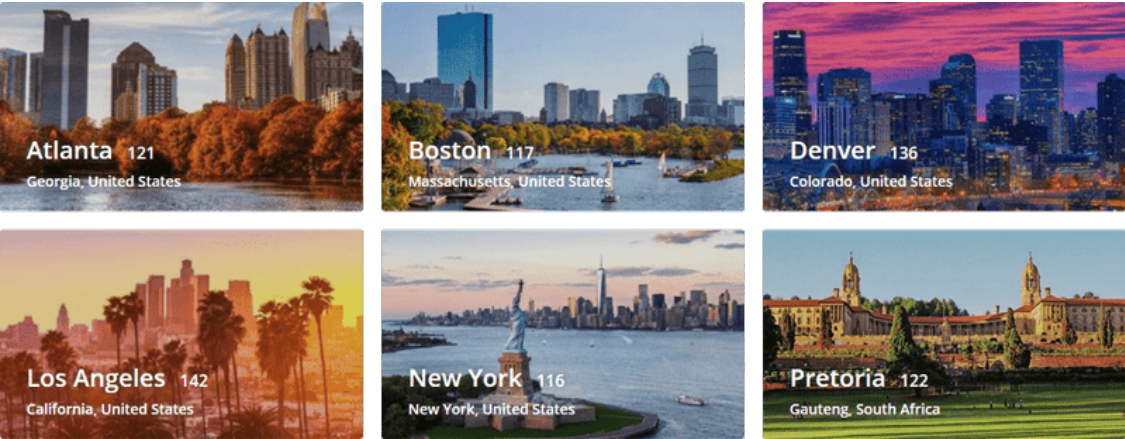

## Office directory for Microsoft 365

Give your offices and departments a digital identity. OneDirectory automatically creates beautiful homepages for every office and department in your company, using the data in your Microsoft 365 user profiles.

## All your locations in one location.

See all your offices on a single page so you can get to them easily without having to build search queries or filters.

## Departmental homepages.

Departments get their own homepages too. OneDirectory creates a unique style for every department, making them easily identifiable throughout your corporate directory.
